Smart Fire Detection (Edge AI Computing) — 3

Flex Arm — 6

Intrusion Detection — 7

Heatsink — 8

Permanent

Deployable

MORE THAN JUST A CAMERA. WE KEEP WATCH 24/7.

| UTILITY COMPANIES	FIRST RESPONDERS	COMMUNITIES	FOREST HEALTH
We protect infrastructure and lives via accellerated detections.	We send accurate fire locations and rapid visual confirmation.	Our visual push notifications get you out fast and safely.	Reduce the impact of fires on climate, people and wildlife.

CUSTOMIZABLE SENSOR PAYLOAD
Cameras, thermal imaging, weather and chemical sensors in a modular enclosure paired with GPS for accurate location and situational awareness.

EDGE AI COMPUTING
Realtime emergency detection using AI in seconds using best-in-class hardware. Optimizes both the data and the alert package by stakeholder.

SECURE COMMUNICATIONS
Onboard AI optimizes the communication path for the detection visual report so that we retain full functionality everywhere. (Satellite, Cellular, or WiFi)

REALTIME SITUATIONAL AWARENESS
Multiple options for realtime situational awareness of emergencies including Delphire's access portal, mobile push notifications, emails or flexible API.

60-DAY PILOTS AVAILABLE. Contact Us Today: team@delphiretech.com
